#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

Art Unit: 2652

This application is a DIV of 09/739,944 and claims 4-13 are now pending with claims 5-6, 10-12 being previously withdrawn from further consideration as being drawn to a nonelected species.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Park et al (US 5,917,679). With respect to claim 13, Park et al discloses a flying head slider, as shown mainly in FIGs. 5 & 9, including: a slider body 100; a generally flat bottom surface 111 defined on the slider body 100; a front rail 130 standing on the bottom surface 111 at an upstream position so as to extend in a lateral direction of the slider body; a front air bearing surface (contiguous to air bearing surfaces 110c, 110d) defined on a top surface of the front rail; a rear rail 180 standing on the bottom surface at a downstream position; a rear air bearing surface defined on the rear rail (top surface of rail); a front surface 131 defined on the front rail, the front surface 131 standing on the bottom surface and defining an upstream end of the front rail; and a recess, e.g., centrally disposed notch (unnumbered) formed on the front surface so as to define an air clogging dished space in front of the front rail (as shown in FIG. 9), i.e., the *space* in front of the notch.

***Allowable Subject Matter***

3. Claims 4, 7-9 are allowable over the prior art of record.

Art Unit: 2652

4. Claim 4 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5-6, 10-12, directed to another species no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Response to Amendment/Arguments***

5. Applicant's arguments filed 6/9/05 have been fully considered but they are not entirely persuasive.

**A...**Applicants' arguments with respect to claim 4, in view of the newly amended limitations, are considered to overcome the prior art of record.

**B...**Applicants' arguments with respect to claim 13 is unpersuasive. The "space" in front of the front rail 130/131, as discussed above in Park et al, is still considered to read on the amended claim. The claim remains silent as to other limitations that have been indicated as allowable.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
